Lexmark™

Parchment Receive

Reduce
manual labor:

print once or route automatically

- Combine all PDFs into a single Web Download File
- Filter and route directly to SFTP directories
- Automatically index into SIS, CRM or ECM system
- Multiple file formats: TIFF, PDF, PESC-XML or EDI

Complete
more applications:

request on behalf of students

- Embed transcript requests in application workflow
- Request all final transcripts in a single transaction
- Request transcripts on a student's behalf

Collect from
multiple sources:

unified inbox

- Automatically collect transcripts from your email inbox, SPEDE, Naviance, CommonApp, eTranscript California and more into a single inbox

Increase
student satisfaction:

step-by-step tracking

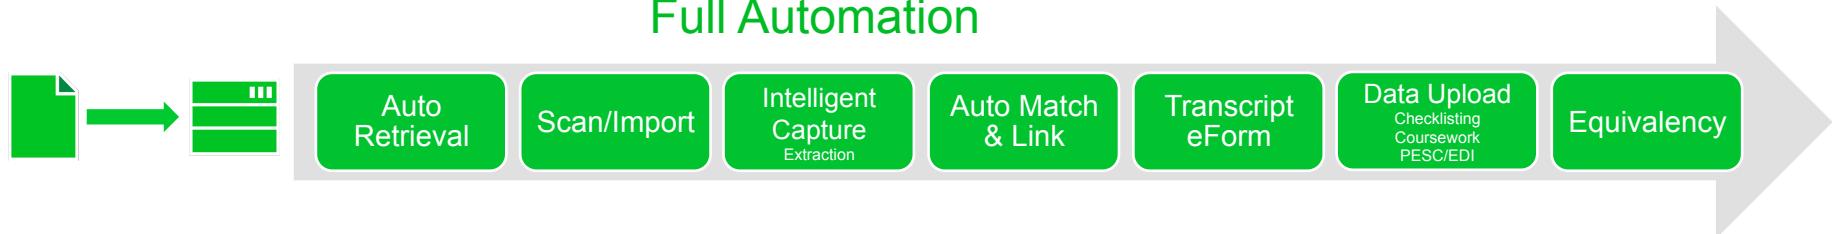

- Real-time online tracking
- Request transcripts seamlessly as part of application process
- Comparative data helps you recruit your ideal class

Lexmark Product Suite

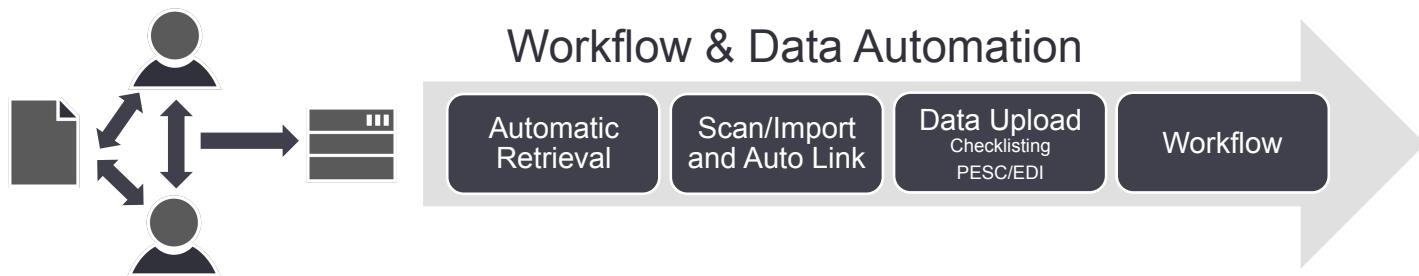

- Perceptive Content ECM
- Perceptive Data Transfer (PDT)
- Perceptive Intelligent Capture for Transcripts

1. Lynn, an admissions processor receives notice that she has transcripts from Parchment available for download
2. She logs onto the Parchment Exchange
3. Locates and selects the file ready for download
4. Drags them to a destination where they are zipped into a single file
5. Unzip the file to a directory on a PC or network

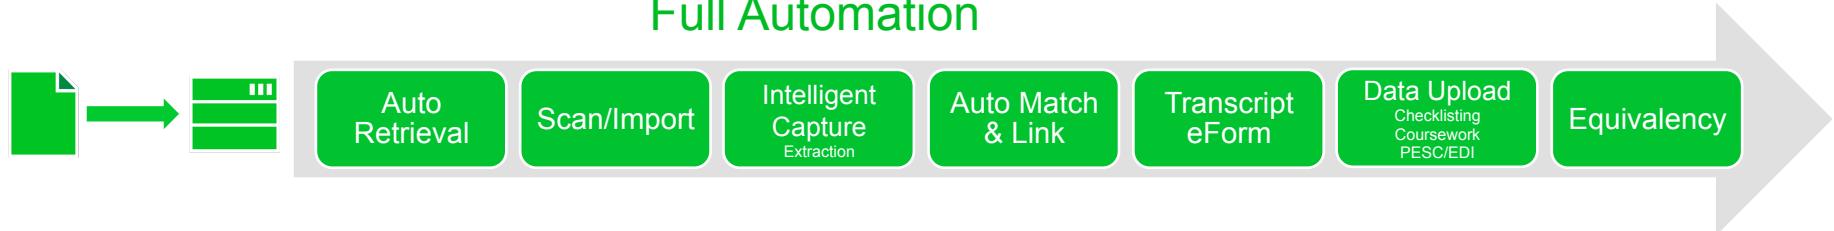

Manual Linking and Checklist Updating

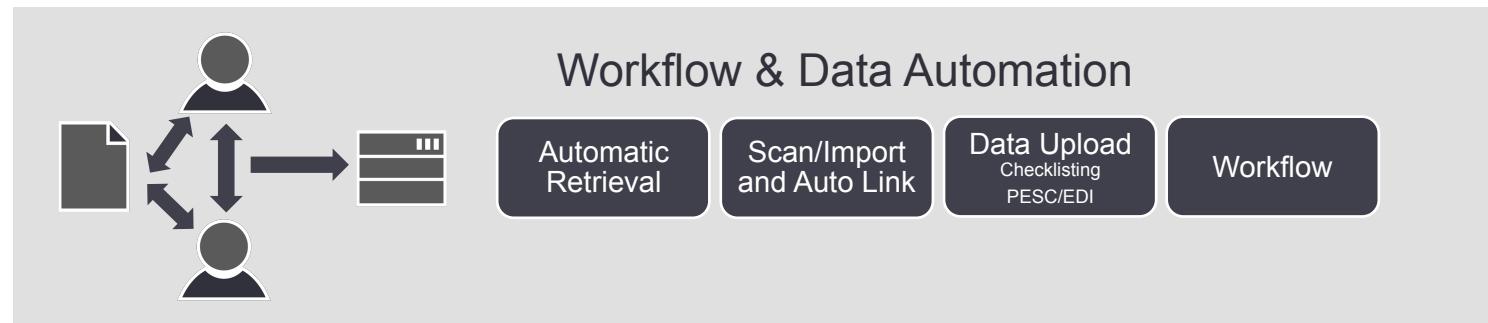

- Manual retrieval of documents from the exchange
- Manual search/lookup of student ID and Institution ID
- Manual data entry of checklist items
- Manual linking and entry of custom properties
- Manual data entry of more data at each downstream process
