

FOR HIGHER EDUCATION
Deliver, Track, Report

Parchment Send provides a web-based (SaaS) solution for institutions to deliver, track, and report on the sending of transcripts and related admissions documents. The solution eliminates the costly and time-consuming steps of fulfilling student requests for transcripts, allowing schools to replace manual and paper-based processes, including payment collection. It brings transcript services completely online for significant long-term ROI.

Simplify & Integrate

Fully secure and FERPA-compliant, the solution enables easy-to-use document transmission from the web interface to any destination worldwide. It can be integrated with an existing Student Information System (SIS), Enterprise Content Management (ECM), or Customer Relationship Management (CRM) system – for institutions wanting a fully automated workflow.

Join the Secure Exchange Community

Trusted by thousands of postsecondary institutions from community colleges to large universities and career colleges, Parchment Send is the solution of choice for rapid, reliable delivery of online education credentials. Being a member of the community provides additional convenience for students and work-flow enhancements for administrators.

The Parchment Platform

Parchment Send is the leading transcript exchange and intelligence platform, connecting senders and receivers. The Parchment platform enables the secure, rapid exchange of millions of electronic transcripts and other student records among more than 9,000 schools and universities, seven state education agencies, and hundreds of thousands of individuals.

Choose Parchment Send to:

- Automate transcript delivery services in an online environment.
- Eliminate costly and time-consuming processes for fulfilling student transcript requests.
- Expedite existing workflows by integrating the transcript request process into your SIS.
- Analyze student data and trends to enhance college and career progression.
- Ensure comprehensive data security throughout the transcript lifecycle.

Parchment Send streamlines the transcript request and release process for you and your students:

- Configuration options include request only, request and delivery, or delivery only
- Fully secure and FERPA-compliant delivery to any recipient globally
- Comprehensive tracking and reporting
- Support for capture and transmission of surcharges for student and alumni requests
- Easy-to-use self-service request and tracking interface for students and alumni
- Integration with your existing student portal for single sign-on access to Parchment Send
- Upload of supplemental documents to be delivered with transcripts
- Comprehensive email notifications throughout the delivery process, in addition to online status reporting

You control the transcript request and release process:

- Configuration options allow you to create and deliver any official document automatically, without any human intervention!
- Role-based security to define access levels by user groups
- Personalization options that completely brand the transcript to look just like your paper transcript. Includes signatures, seals, watermarks, etc.
- Email notifications when student-initiated requests are pending action by your institution
- Institutional analytics that are specific to key stakeholders

Features:

- Security
- Branding
- Full Automation
- SIS Integration
- Scalability
- Ease of Installation
- Ease of Use

Benefits:

- Improve Service
- Real-time Processing
- Instant Communication
- Reduce Costs
- Increase Efficiency

Fast Facts:

- Creators of the original cPDF
- U.S. Patented Technology
- 340+ Partnering Institutions
- Over 7 million transcripts delivered
- Over 3,500 receiving institutions

About Parchment Inc.

Parchment's mission is to unleash education credentials by unlocking the critical data they embody. A credentials data company, Parchment works with institutions and corporations around the world helping people collect, promote, and share their education credentials in simple and secure ways. At Parchment.com, students can research colleges and discover their chances of admission, see how they compare with peers, get college recommendations, and send official transcripts when they are ready to apply. The Company's Software-as-a-Service (SaaS) offering, Parchment Send, is the leading transcript exchange and intelligence platform. The solution enables the secure, rapid exchange of millions of electronic transcripts and other student records among more than 9,000 schools and universities, seven state education agencies, and hundreds of thousands of individuals. Founded in 2003, Parchment Inc. is a venture-backed company headquartered in Scottsdale, Arizona with offices in Roseville, California, Washington, D.C., and Denver, Colorado.
